Who We Are

JWS has been providing sustainable waste management and disposal solutions to businesses across the North West since 1983.

We aim to support your business by offering a solution that is cost-effective, sustainable and effective in improving your current waste management activities.

We are an **award-winning business** for environmental services – meaning that you can trust in us to provide a quality service that gets results.

Our aim is to divert at least 98% of your waste from landfill through recycling and energy from waste solutions, resulting in a more sustainable solution for your business.

Our Values

What Makes JWS Stand Out?

✓ Technology & Innovation

We find innovative ways to enhance our services and improve our customer experience, from digital tickets which arrive straight to your email, waste breakdowns and intuitive reporting.

✓ UK Energy From Waste

Diverting your waste from landfill, we send non-recyclable waste materials to local facilities to be used as a resource for heat and electricity.

✓ In-House Materials Recycling

We focus on resource recovery via our very own Materials Recycling Facility (MRF), maximising the value of your waste materials through expert segregation from our facility here in Salford.

✓ Central Manchester Location

Situated in Salford, right near the city centre, this makes us an ideal solution for businesses and construction projects happening in the heart of Manchester.

✓ Sustainable Fleet

A key part of our service, we are pleased to have been FORS accredited for the safety, efficiency and environmental standards of our entire fleet. We also ensure our vehicles are Euro 5 or 6 for the best sustainability.

We aim to divert most of your waste from landfill.

Your recyclable waste materials are made into new products.

Non-recyclable waste is sent to a local facility to be used as an energy resource.

What We Do

Our services are tailored to help improve your sustainability to meet environmental targets, whilst also resulting in a more cost-effective solution for your waste requirements.

We work inline with the waste hierarchy to encourage the best results for you in terms of sustainability and quality.

Our philosophy is to provide a waste management service with **your business and the environment in mind**, in order to maximise the benefits and effectiveness of our solutions.

2017 Statistics

Skip & Container Hire

We offer a range of alternative containers such as rollonoffs, construction bins, hook skips and enclosed containers so that you can find the solution you need.

Trade Waste Services

Our trade waste collection and disposal service is a flexible and sustainable solutions for many business types. We provide wheelie bin containers in sizes 240, 360, 660 and 1100 litres.

Customer Reporting

You can access a wealth of information about your waste management movements via our online customer portal and find your service documents all in one place.

Specialist Waste Collections

We offer alternative solutions for your waste collections with our range of waste collections vehicles, including our curtain-sider, tail lift and cage van.

Hazardous Waste Services

Our Hazardous Waste Service offers you an affordable, hassle-free solution for your hazardous waste materials, built on environmental support and compliance.

Third Party Tipping

Commercial companies can bring waste to our facility here in Salford, where we will segregate your waste through our MRF to recover as much recyclable materials as possible.

How We Can Help You

We have many in-house specialists available to give you the time and expertise assistance you need for your site's waste management solution.

You will be appointed an **Account Manager** based on your business sector so that you can work with somebody experienced in helping businesses similar to yours.

Having your own Account Manager means that you can be confident you will receive a high-quality service tailored to suit your specific needs.

Customer care and support are part of what makes JWS stand out and we couldn't be happier to offer you the assistance you need in order to achieve the best results.

Quality forms a key part of our **compliance commitment**, ensuring that your solution meets industry standards.

We are not just a service provider – we are a partner in helping to promote good recycling practice within your business and support you in achieving your waste management targets.

Support From the Very Beginning...

Support To Meet Business Targets

Online Information & Reporting

Cost-Effective & Efficient

We can arrange a call or visit to discuss:

- Your requirements
- Challenges you are facing
- Any targets/goals you may have

The next step will be to decide on a solution that is ideal for you:

- Container sizes & quantities
- Onsite segregation strategies
- If a service schedule needs arranging

Here are a few other ways that we can support you even more:

- Site signage to encourage segregation
- Online reports and waste breakdowns
- Follow up meetings to review the strategy and see any areas that need improving
- Help with winning environmental awards and achievements

Don't just take our word for it!
